Caucus is the most widely viewed public affairs television program dealing with New Jersey issues. Given our comprehensive television broadcast, cable, and radio distribution network, each Caucus program airs a minimum of 15 times per week. In addition, Caucus broadcasts hour-long specials, each season, which also air in our regularly scheduled time slots. Caucus underwriters are featured at the beginning and end of every Caucus program, which offers these corporations and foundations a minimum of 30 on-air impressions for underwriting a single Caucus program. Such an aggressive and extensive on-air exposure initiative is unequalled in Public Television.
